PROFILE

Passionate UI/UX Designer with a keen eye for clean, user-centered design and over [insert years] of experience crafting intuitive digital experiences. Skilled in wireframing, prototyping, and creating responsive, accessible interfaces using tools like Figma, Adobe XD, and Webflow. I bring ideas to life through design thinking, UX research, and collaboration with cross-functional teams — always striving to bridge the gap between users' needs and business goals.

WORK EXPERIENCE

2024 - PRESENT

Cybotronics Solutions. | Pune

Ui/Ux designer

- Create and manage design budgets, ensuring optimal allocation of resources to maximize user experience and project efficiency.
- Conduct user research and usability testing to uncover user needs, emerging design trends, and analyze competitor interfaces.
- Develop and execute end-to-end UI/UX strategies and design systems that align with the company's brand, goals, and user expectations.
- Ensure design consistency and visual coherence across all digital products, platforms, and touchpoints.

PROJECTS

Ezymetrics

- Create and manage design budgets, ensuring optimal allocation of resources to maximize user experience and project efficiency.
- Conduct user research and usability testing to uncover user needs, emerging design trends, and analyze competitor interfaces.
- Develop and execute end-to-end UI/UX strategies and design systems that align with the company's brand, goals, and user expectations.
- Ensure design consistency and visual coherence across all digital products, platforms, and touchpoints.

MDM

- I designed MDM, a comprehensive platform focused on efficient Master Data Management (MDM) and associated functions.
- The platform ensures seamless handling of critical business data, promoting consistency and accuracy across multiple systems. Through intuitive design, MDM simplifies data governance, integration, and synchronization, enabling organizations to manage their data more effectively.

Starlightify

- Starlightify is a dynamic, user-friendly platform designed specifically for HR professionals to simplify and enhance the recruitment process.
- This website provides intuitive tools for posting job listings, reviewing candidate applications, and streamlining interview scheduling.
- With a focus on efficiency and ease of use, Starlightify ensures HR teams can find and hire the best talent faster, with features tailored to the needs of modern recruitment workflows.
